Juice
PLUS+

WHAT IS **JUICE PLUS[®]+**?

With everything on our plates, making healthy decisions can be a struggle. What we should eat and what we actually eat don't always line up.

That's why Juice Plus+ has spent more than 25 years inspiring healthier living through better nutrition and simple lifestyle changes.

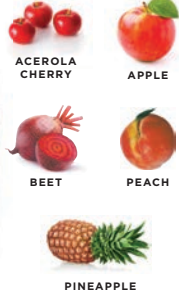

With products made from more than 30 fruits, vegetables, berries, grains, and oils, we make it easier for you to get more of the nutrition you need.

And before you know it, you just may be surprised at how those little changes really add up.

BRIDGE THE GAP

Juice Plus+ helps you add what's missing from your diet with plant based nutrition.

SOURCED FROM THE PUREST INGREDIENTS

Juice Plus+ capsules and chewables start with the highest quality fresh fruits, vegetables, berries, grains, and oils straight from the source. We locate our juicing and drying facilities as close to our farmers as possible.

When that's not close enough, we use a process called Individual Quick Freezing to preserve freshness. Then we use a proprietary process to juice and dry the produce at low temperatures to unlock and concentrate the nutrients.

Our Omega Blend originates from algae for a more sustainable, pure source, unlike other fish-based supplements. We cold-press the oils and fuse each capsule together to preserve the nutrients.

Juice Plus+ is produced at state-of-the-art facilities that meet or exceed the highest food industry standards. Our capsules and chewables are all certified by the public health and safety company NSF, as confirmed by the seal on every Juice Plus+ bottle and pouch.

Juice Plus+ is a practical way to get more of the nutrients you need to proactively manage your health.

THE IMPACT OF HEALTHY STARTS

For more than 20 years, we've helped more than 1.5 million families make simple changes that have resulted in huge benefits. After enrolling in the Family Health Study, parents reported the following about their children:

60%

were missing fewer days of school

66%

were visiting the doctor less

56%

were taking fewer over-the-counter and/or prescription drugs

71%

were consuming less fast food and soft drinks

71%

were drinking more water

61%

were eating more fruits and vegetables

*These results are based on 250,000 study respondents

“We as a family are more aware of the responsibilities we have in eating good food to make our bodies healthier!”
